(PDF) Towards a Critical Cognitive Linguistics?

Critical discourse analysis is an interdisciplinary approach to the study of discourse, or put simply talk and text, that views language as a form of social practice. Scholars working in the tradition of CDA generally argue that social practice and linguistic practice constitute one another and focus on investigating how societal power relations are established and reinforced through language use. In this sense, it differs from discourse analysis in that it

Critical discourse analysis - Wikipedia

My research draws on insights and methods from cognitive science and critical discourse analysis to investigate the links between language, cognition and social/political action. It falls into three principal programs. In the first, I advocate a Cognitive Linguistic Approach to Critical Discourse Studies (CL-CDS). This approach involves a semantic analysis of particular linguistic (lexical, grammatical, pragmatic) features found in political and media discourse.
